

The Eco-Sensitive Premium Tea Light with Brilliant Shine

0% Aluminium – 0% Paraffin – 0% Palm Oil

The Better Tea Light for the Environment

- ✓ 0% aluminium – instead of harmful and health-damaging aluminium we use recyclable plastic cups
- ✓ 0% paraffin – 0 % palm oil
- ✓ 100% soy bean oil or rapeseed
- ✓ Resource saving – 70% less plastic needed for production (patented technology)
- ✓ We use recycled plastics

A Beautiful Light for the Home

- ✓ **Brilliant shine** – the transparent or colored translucent cups achieve a much brighter and warmer shine
- ✓ Less soot production by using high quality plant and natural oil

Quality: Made in Germany

- ✓ Our high quality products are made in Germany
- ✓ Production and ingredients comply with RAL standards

Additional Innovative Features

- ✓ Less heat dissipation – in comparison to aluminium cups the plastic cups produce less dangerous heat
- ✓ The „Click & Light Technology“ greatly simplifies the handling – the customer only needs to push the cup out of its pre-cut frame
